

Off Hour Emergency Policy

In the event of a client emergency after hours, the clinical team serving you can be contacted 24 hours a day. Patients can also call our agency's 24 hour on call staff at (781) 885-7252 and press "0" or contact the staff working with you below directly. If the staff working with you has made specific arrangements with you about after-hours emergency contact, please adhere to his/her instructions or by contacting them directly. The information is located below.

Please note:

In the event of a life-threatening emergency you should call 911

You may use text messaging to contact staff; however, this will be a **one-way communication**. Staff are not allowed to text patients. A staff member will respond to your text message by phone call.

If there is more than one staff person working with you, and you have a plan using telehealth tools, please contact that staff person regarding the direct intervention on the plan you discussed.
